The model with the brown leaves was stitched "over one" on 28 count Lugana "New Khaki" (#3270-307) courtesy of Zweigart/Needleworker's Delight. The little biscornu was stitched with DMC 310 (Black) "over one" on 28 count Jazlyn "Golden Harvest" (#3626-2024) from Needleworker's Delight/Zweigart

If you'd like to include a monogram on the back of a scissor the following alphabet is included.

This is to just give you a general idea of a layout with the above alphabet. The central monogram letter (here, the "H". Substitute the initial of your last name) is stitched "over two" while the smaller letters are stitched "over one".
